² Size of County (including water bodies) is the total of all PLS40 (a GIS data layer created by MN DNR) polygons that comprise the county. This value does not include some of the major water bodies of the state, including Lake of The Woods, approx. 1/2 of Mille Lacs Lake, and Lake Winnibigoshish. This was calculated for this project as no resource for standardized county acreages is available.

³ Size of County (excluding water bodies) is the Size of County (including water bodies) with meandered water bodies subtracted.

⁴ DNR Administered Lands Acreage is based on the Public Use Administrator.

⁵ DNR Management Units may be wholly or partially within the County and are only indicated for Units with state owned land (see page 2 for unit names). Some management units listed as FMAs are in the process of being re-designated as AMAs.

⁶ Completed Sales/Acquisitions/Exchanges for Fiscal Year 2008 are those completed between 7/1/07 to 6/30/08. See page 2 for additional information.
